

Project Subject

What are the employment opportunities for a person with a disability?

Project Members

Brady Goldman, James Byron, Jon Selberg

Contributions

Brady Goldman

- Created data wrangling scripts for disabilitystatistics.org
- Pulled data from DataFerrett
- Wrangled data from DataFerrett into useful format
- Created DataW document
- Conceptualized visualization design based on available data
- Met with professor to refine project

James Byron

- Initially discovered and defined project subject
- Calculated total number of individuals with various levels of education
- Added text and style to HTML presentation page
- Created data design document revision
- Created group contributions document
- Conceptualized visualization design based on available data
- Met with professor to refine project

Jon Selberg

- Coded the visualizations
- Analyzed data to sharpen and refine the project scope
- Came up with visualization concepts based on available data
- Met with professor to refine project
